15L	9,990 THB
<b>Special price</b>	<b>7,990 THB</b>
30L	10,690 THB
<b>Special price</b>	<b>8,490 THB</b>

- Exclusive O'pro anti-corrosion. Technology actively increases the useful life of the Magnesium resistor bar that heats the water inside the tank, helping to increase the life of the tank. Complies with European safety and energy saving standards.
- +50% tank life thanks to O'Pro technology
- High density Mg bar protects the vessel
- Diamond enamel technology for the heart of the vase
- ECO mode saves electricity and prolongs tank life
- Intuitive LED indicates hot water status
- Temperature adjustment knob with high precision temperature sensor
- IP24 - water/insect resistant
- PRCD anti-shock
- Sensor to prevent resistive dry burning & prevent overheating

- Complies with European safety and energy saving standards.
- Increase tank life by 50% thanks to O'Pro technology
- High density Mg bar protects the vessel
- Diamond enamel technology for the heart of the vase
- The inside of the tank is welded using aviation technology
- IP24 - water/dust/insect resistance standard
- PRCD anti-shock
- Anti-overheating & anti-dry burning resistance sensor, European standard.
- LED light indicates hot water is ready
- Automatic temperature adjustment with high precision thermal sensor

# Thermal comfort for all

Water Heater by **GROUPE ATLANTIC**

**SINGLE POINT**

**MULTIPOINT**

**STORAGE**

Established in 1968 in France, Atlantic is now a leading brand of electric hot water systems in Europe.

Today, GROUPE ATLANTIC has 31 industrial sites worldwide producing and its products commercialized in more than 100 countries.

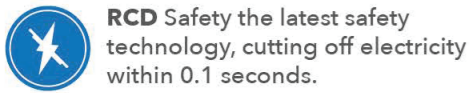

Atlantic hot water systems are manufactured with high quality materials to provide European quality, innovation and efficiency.

Our aim is to increase consumers' comfort and satisfaction throughout the world

### OUR BRAND

## OUR SAFETY SYSTEM

**RCD Safety** the latest safety technology, cutting off electricity within 0.1 seconds.

**IP 25** protected against low-pressure water jets from any direction.

**Covering** constructed with fire-retardant ABS, augmenting safety attributes.

**Microcontroller** enables an automatic "Test" before each heating cycle, eliminating the need for manual actions by customers..

**EMC compliant** minimizing emissions of electromagnetic radiation to neighboring electronic products when the water heater is operational.

**Flow switch control** regulating heating based on flow rate to prevent dry heating.

**Manual reset thermal cut-off** ensures protection against overheating, serving as a reliable safeguard in the event of component malfunctions.

**Earth wire** safeguards against electric shock.

**Child protection** limiting outlet temperature to 37°C.

**AG+ antibacterial silver ion technology**, Silver ion treatment applied in the shower head, to ensure both user's skin protection and hygiene
