YOUR PARTNER FOR SHOWERS

NIKLES GROUP is one of the world's leading shower equipment manufacturer and supplier. Nikles is a Swiss family-owned corporation. We manufacture high-quality products that are sustainable and durable.

Our clients all around the globe, such as luxury manufacturers and leading retailers, are sourcing hand showers, shower heads, slide bars, shower systems and kitchen sprays from us. Nikles consistently reinvest profits back into research and development resulting in a continuous stream of new products and technologies.

We are committed to maintaining and expanding our position as a technology partner. Nikles prides itself with products that are trendsetting and state of the art design.

All Nikles products are in compliance with diverse standards in different regions of the world. Our customer base is global with clients from all around the world.

As a designer, creator and manufacturer of shower products it is our core purpose to offer the consumer the right product with an attractive design, appropriate functionality and superior quality and to contribute to the success of our clients

NIKLES COMPANY

and business partners.

Our success is built on a team of people with an extraordinary dedication to their professional standards. We believe in the mutual leverage of our business.

Our focus is on the creation of products and implementation of strategies to exceed market expectations.

Die **NIKLES GRUPPE** ist einer der weltweit führenden Hersteller und Zulieferer von Duschausstattungen. Nikles ist ein Schweizer Familienunternehmen.

Wir fertigen hochwertige Produkte, die nachhaltig und langlebig sind. Unsere Kunden aus aller Welt, wie anspruchsvolle Hersteller und führende Einzelhändler beziehen Handbrausen, Duschköpfe, Gleitschienen, Duschesysteme und Küchenbrausen von uns.

Nikles investiert stetig einen grossen Teil des Gewinnes in die eigene Forschung und Entwicklung, damit immer neue Produkte und Technologien auf den Markt kommen. Wir sind bestrebt, unsere Position als Technologiepartner zu halten und auszubauen. Nikles ist stolz, einer der Ersten zu sein, die Produkte zur Verfügung stellen, die zukunftsweisend sind und die dem neuesten Design entsprechen.

Alle Nikles Produkte halten diverse Normen von verschiedenen Regionen und Ländern dieser Welt ein. Wir beliefern Kunden in der ganzen Welt.

Als Designer, Entwickler und Hersteller von Duschezubehör, sehen wir es als unsere Kernaufgabe, dem Konsumenten ein Produkt anzubieten, welches durch sein attraktives Design, adäquate Funktion und erstklassige Qualität hervorsteicht. Dadurch leisten wir unseren Beitrag zum Erfolg unserer Kunden und Geschäftspartnern.

Unser Erfolg basiert auf unserem Team, welches mit Leuten besetzt ist, die zusätzlich zu ihren professionellen Standards eine aussergewöhnliche Hingabe zum Beruf vorweisen. Wir glauben an einen beidseitigen Einfluss in unserem Betrieb.

Unser Fokus liegt auf der Herstellung von Duschen und auf der Einführung von Strategien um die Markterwartungen zu übertreffen.

Le **GRUPE NIKLES** est une entreprise familiale suisse, faisant partie des principaux fabricants et fournisseurs d'équipements de douche dans le monde. Notre clientèle internationale de fabricants haut de gamme et revendeurs, trouve chez nous une gamme complète de douchettes, têtes de douche, barres et colonnes de douche adaptée à tous les besoins. Nikles consacre une grande part de ses investissements dans la recherche et le développement, introduisant régulièrement de nouvelles technologies lui permettant de maintenir sa position leader dans le domaine de l'innovation. Nikles offre donc constamment de nouveaux produits de haute qualité, au design novateur, avec une garantie de 5 ans.

Nos produits répondent aux critères standards les plus divers requis par les différentes régions du monde.

En qualité de concepteur, créateur et fabricant d'articles de douche, notre principal objectif est d'offrir au consommateur un produit performant, au design attrayant, avec des fonctions appropriées et de haute qualité, contribuant ainsi au succès de nos clients et partenaires.

Notre succès est construit autour d'une équipe impliquée et professionnelle.

Il **GRUPPO NIKLES** è uno dei leader mondiali per la produzione e la fornitura di elementi per l'ambiente doccia. Nikles è un'azienda svizzera a conduzione familiare in grado di offrire prodotti di qualità che sono allo stesso tempo eco-sostenibili e progettati per durare nel tempo. I nostri clienti, sparsi in tutto il mondo, comprendono i produttori di fascia alta del settore e i maggiori rivenditori, i quali si rivolgono a noi per la fornitura di docce, soffioni, saliscendi, sistemi doccia e docce da cucina. Nikles reinveste gran parte dei propri profitti nel campo della ricerca e dello sviluppo, dimostrandosi all'avanguardia e volgendo il suo impegno ad incrementare la posizione di partner tecnologico, garantendo così un flusso continuo di prodotti anche dal design innovativo.

Tutti i prodotti Nikles sono conformi ai differenti standard in vigore nei diversi Paesi, cosa che rende possibile avere clienti in tutto il mondo.

In quanto designer, creatori e produttori di elementi per la doccia, il nostro scopo principale è quello di offrire al consumatore il prodotto giusto, dal design accattivante, di qualità superiore e dotato della adeguata funzionalità, in modo da poter contribuire al successo dei nostri clienti e partner commerciali.

Il nostro successo è costruito attorno ad un gruppo di persone che mostrano una dedizione straordinaria alla loro professione e crediamo che nella nostra attività sia importante il reciproco supporto.

Il nostro scopo è creare prodotti e implementare strategie che vadano oltre le aspettative del mercato.

TIMELINE

1982

Founding of the company by Mr. Gerhard Nikles.

Started as a trading company and agency for sanitary products, which were mainly distributed in Switzerland and Italy.

1990-1995

Nikles developed into a manufacturer and began producing stainless steel braided hoses as connection hoses for faucets.

1996-2000

Establishment of the office in Italy.

First kitchen & shower program and relocation of production from France to Italy.

2000

Growth of the shower program.

Sale of the trading and agency company.

Expansion as an OEM manufacturer for prestigious luxury manufacturers.

2007

Building of the Nikles warehouse and manufacturing plant in Italy.

2008

Founding of Nikles factory in Shanghai (China) with tool manufacturing & PVD equipment.

Expansion of the Nikles brand into Germany, Australia, and New Zealand.

2009

Patent registration for Nikles Airdrop technology.

2010

Founding of Nikles Shower Components Co., Ltd. Factory in Xiamen (China).

Relocation of manufacturing from Shanghai to Xiamen.

2012

Establishment of sales company and warehouse Nikles (Showers) Thailand Co., Ltd.

Launch of Nikles brand in SE Asia countries

2013

Founding of Nikles Tubes GmbH in Germany

Takeover of a hose production company in Germany

Stainless Steel shower expansion with fabrication

2014

Patent registration of Nikles Sound Technology

Relocation of hose production to Nikles Tec Italia Srl.

Reorganization of Nikles Tubes GmbH as sales company in Germany

2015

Founding of the distribution company and warehouse Nikles (USA) Inc.

Launch of the Nikles brand in North America

2017

Patent registrations for Nikles basin faucets, Droplless, and Silk technologies

First basin faucet program with Carbon

2018

Patent registration of Pressure Control Valve Technology

2021

Patent registration of Nikles Swirl Jet Technology

2022

Nikles 40th Anniversary

Techno Line

2023

Patent registration of Nikflow Technology

2024

Opening of a new office and showroom in Thailand.

FOLLOW US ON:

AIRDROP

Experience a gentle, uplifting feeling that envelopes the body. Delivering a rejuvenating spray that is soft and gentle on the skin. Airdrop showers operate quietly and save water at the same time. All showers are also available without Airdrop system, except our Pure range.

AUTO ON/OFF

Rainlight / Rainbow lights switch on automatically, when you turn on the water. Lights continue for two minutes after you shut off the NIKLES Rainlight showers. An extra bit of quality time.

BOOSTER TECHNOLOGY

Switch to wellness! Enjoy the powerful massaging shower spray that exhilarates the body and awakens the senses. NIKLES booster technology creates the sensation of a full shower regardless of the water pressure.

CARBON

Carbon fiber, best known from lightweight design & construction, now comes into your shower. Nikles is the first shower manufacturer to use this material in its shower range. Carbon fiber is ultra-resistant, durable and easy to clean. The smooth surface prevents fingerprints and residues.

CASCADE SHOWER

Experience a truly rejuvenating shower with the Nikles cascade showers. Feel the water pouring on your body and relax from the daily stress.

CHECK VALVE

The Nikles check valve prevents water back flow from showers, faucets or shower hoses. These one way directional valves are for more safety.

PUSH BUTTON

The new Nikles push-button system makes it easy to switch from a soothing soft shower spray to a pulsating massage spray. Enjoy an exhilarating shower at any water pressure.

CLICK POSITION SYSTEM

All NIKLES multifunction showers feature the convenient click mechanism. You feel and hear the click when changing the function of the shower sprays.

DROPLESS

After shutting off the water in our Droplless system, the remaining water completely drains from the shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles.

EASY TO CLEAN

Swipe away residues with a flick of your finger.

FLOW LIMITER

Nikles flow limiters are saving water and energy without losing the comfort of a full shower spray. All flow limiters comply with water regulations and each one is tested during manufacturing to assure performance. Nikles flow limiters are ecologically sound. Available from 4lt/min to 16 lt/min.

HOSES

Nikles shower hoses not only transport water from the faucet to the shower, but also include smart technologies such as the possibility to add flow limiters or check valves. The standard G1/2 connection enables easy installations and the swiveled nut provides a longer product life. The Easy-to-Clean technology of the hose surface is an additional advantage. Nikles shower hoses are available in different lengths and in anti-bacterial material complying with German norm DVGW W270.

INFINITY

Nikles with its Infinity range has achieved the ideal combination of organic, timeless design and ergonomic forms for ultimate comfort. The range of Infinity products allow you to match the shower to your bathroom.

LIGHT

The Nikles Light cartridge illuminates the shower spray in a ray of soothing colors as soon as you turn on the water. No electrical connection is needed to power Nikles Light because our patented cartridge system uses hydropower energy. The Nikles Light completes your relaxing shower experience.

MIRROR CHROME

Our state of the art chrome plating technology produces mirror like surfaces. The ultra smooth surface prevents the buildup of lime and residues on the Nikles shower systems.

NIKLES ECO

NIKLES is committed to ecologically and economically sound water saving practices.

NIKLES ECO sets a benchmark in water saving technology: ECO showers make water saving an easy task: Only using 6 liters per minute.

ECO showers reduce water usage of an average shower by two thirds - while assuring a great shower comfort.

PRESSURE CONTROL VALVE

Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after a thoroughly cleaning of the shower nozzles the shower works normally.

SILK SPRAY

Imagine a spray as soft as silk caressing your skin. With the sensation of a light summer rain, the new NIKLES SILK shower allows you to feel relaxed and rejuvenated. Avoiding limescale buildup in the shower head keeps the system working at maximum efficiency.

SINGLE LEVER MIXER

Nikles single lever mixers enable

you to adjust the water temperature to your liking. The mixers also feature the Nikles cool touch function for your safety. The internal mixer body is made of brass and the outer body cover is made of ABS to prevent scalding.

THERMO INSULATION
 Insulated shower systems prevent scalding and prevent accumulation of residues. This saves you much cleaning time and the use of harsh chemicals.

THERMOSTAT
 Nikles thermostatic mixers are made for your comfort. The high quality thermostatic cartridge is preset at an enjoyable and safe 38° Celsius. It includes anti - scalding protection for your safety.

Nikles Carbon

The element of Carbon is found in Nature in three different forms Diamond-Graphite Buckminsterfullerene. Each of its form has its own field of use. As the Carbon diamonds are used for jewellery, the fiber is used for aircrafts, sports equipments, car industry and for the Nikles Carbon Showers. The fiber is composed of atoms which are bonding together. They form a honeycomb-like battern, which makes the material very strong, light and durable.

Why Carbon?

During a stroll in the city of Basel, Switzerland our president Mr. Gerhard Nikles remarked the variety of the Carbon Fiber. The passing bicycles, the jewelry in all the different shopping-windows and also in the cars. All of them uses the material in a different way for a different purpose. That's when the idea "hit" him. "Why not use the Carbon fibers for our showers?!" Even before he was at home all of his team have been informed of his idea. The research and development of a Nikles Carbon range has begun.

The Life of Carbon Sustainability

Against the common consideration Carbon can and is recycled. Although the correct word is Down-cycled. The fiber will be heated so the material is sorted in its different components. It will re-used as "Woolen-Carbon" which is mainly used for inner car parts. Or as Carbon resin, which mixed with different materials, for example glass fiber, can be injected in molds for "smaller daily parts". "The life line in the fields of usage" is fist in the aerospace applications, then automobile applications then sporting goods and at the end for consumer electronics. The way of recycling Carbon is in a constant development, as this material is getting more important in the daily life for all of us.

FAUCETS

NIKLES FAUCET

FULL OF TECHNOLOGY

NIKLES CONTROL HANDLE

With the ergonomic control handle, you can choose a water temperature that is suitable to you. Every handle is tested for sturdiness to avoid loose and shaky operation during its lifespan.

HIGH PERFORMANCE CARTRIDGE

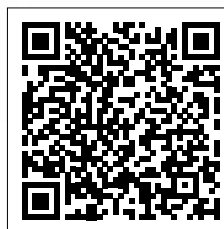

The 35 mm ceramic cartridge ensures high performance in low- and high-pressure conditions. The longevity is tested in a 500,000-cycle test and the ceramic disks brush away any debris between the disks for smooth handle operation at all times.

APPROVED MATERIALS

Nikles Faucets are designed with safety in mind. Water passes through only approved material in accordance with worldwide water regulations eliminating the contamination of lead and nickel in the water.

THERMO INSULATION

The insulated body prevents scalding and the accumulation of residues. This saves you much cleaning time and eliminates the need for harsh chemicals.

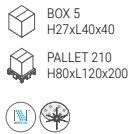

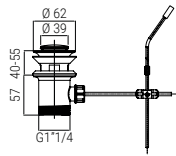

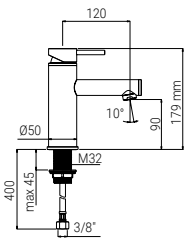

Nikles Faucets
Packed with innovative
technology

NIKLES THERMOSTATIC

Nikles introduces **Nikles Therm System** - an integrated thermostatic mixer with intelligent technology at its core. The easy to use ergonomic control knobs enables you to switch from shower head to a handshower setting or regulate the water temperature with a turn. Nikles Therm System is designed with safety in mind. A thermostatic valve controls the temperature accurately and **maintains the water temperature at a maximum of 38°C** - unless you manually override this by

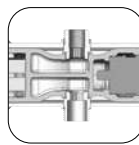

pushing a safety button. A feel cool double shell system always keeps the outer shell of the thermostat at a comfortable temperature to avoid the risk of scalding.

The Nikles Therm System is aesthetically pleasing and offers an easy way to integrate a shower head and handshower into your bathroom. In addition to advanced technology, the Nikles Therm System features a contemporary design and blends perfectly.

EASY SELECTOR

Enjoy the comfort of one handle to open, close and select your favorite spray

FEEL COOL

The Nikles thermostat mixer always stays cool for more comfort and safety in your bathroom

THERMOSTAT MIXER

Enjoy a well-tempered relaxing shower with the Nikles thermostat mixer.

NIKLES SINGLE LEVER

Nikles introduces the **Single Lever Shower system** - an integrated single lever mixer with a ceramic disc cartridge. The ergonomic control handle enables you to regulate your suitable water temperature.

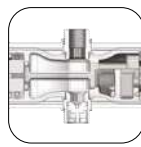

With the intelligent built-in 3-way diverter, you can choose to use either the shower head, the hand shower or both together in a mix position.

Nikles Single Lever Mixers are designed with safety in mind, featuring a brass body with ABS chrome-plated double outer shell a perfect combination of contemporary design and safety. Besides technical advantages, Nikles single lever shower systems make an aesthetic statement.

EASY SELECTOR

Enjoy the comfort of one handle to open, close and select your favorite spray

SHOWER SYSTEMS

NIKLES SHOWER SYSTEM

The **Nikles shower systems** are characterized by their timeless elegance. Consistent design, clear and pure lines combined with an easy-to-use 3-way-diverter, allow you the pleasure to use hand shower and shower head at the same time and thus to reach

the climax of a perfect shower pleasure. The Nikles shower system also features scalding protection by the isolated water flow inside the shower system and scalding from touching the surface is prevented.

SHOWER SYSTEMS

KIT SYSTEM 5 SKY

OLD SYSTEM

- Shower head only
- Renovation needed to add a hand shower
- Not enough space for conventional system

NIKLES KIT 5
INSTALLATION
VIDEO

NEW KIT SYSTEM 5 SKY

- Complete system with shower head and multifunction hand shower
- Compact, modern and beautiful design
- Plug and play; no renovation needed

Pressure control valve and Dropless shower head

Sky Duo Silk hand shower: Rain spray

Wall bracket for convenient installation

Pull diverter with easy reach

Optional 45° swivel connection

EASY 3 STEP INSTALLATION

STEP 1

To upgrade your standard shower to a luxurious Nikles shower head and a hand shower without any tile removal, you will first have to simply remove your existing showerhead.

STEP 2

Install the Nikles Kit System 5 Sky without having to make any changes to the in-wall plumbing. The compact system is suitable for any shower.

STEP 3

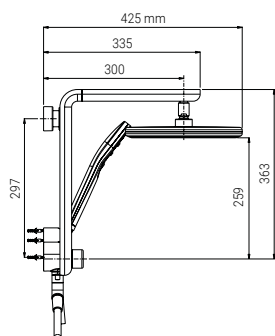

Complete the transformation by installing the already included Nikles Sky Dropless shower head and the Nikles Sky Duo Silk Spray hand shower.

NIKLES DROPLESS

“ After shutting off the water, the remaining water completely drains from the DropleSS shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles. ”

PRESSURE CONTROL VALVE

“ Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after thoroughly cleaning the shower nozzles the shower works normally.

”

LUCE

“

The story behind the shower head Luce is simple and amazing at the same time. During a walk in the streets of a small Italian village, a ball shaped lamp post has set the inspiration. It was a special moment, the light and atmosphere has been unique. So why don't do a unique shower?

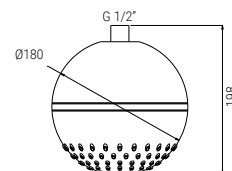

The idea of a ball shaped and illuminated shower has been born and the process of designing has started. The outcome of this walk is an amazing shower. One which is a perfect mix of a unique design, pleasant water flow and soothing light. **Luce, the shower head with the Italian flair for your bath.**

Light

“

The Nikles Light cartridge illuminates the shower spray in a ray of soothing colors as soon as you turn on the water. No electrical connection is needed to power Nikles Light because our patented cartridge system uses hydropower energy. The Nikles Light completes your relaxing shower experience.

FLOW LIMITERS

Nikles flow limiters are saving water and energy without losing the comfort of a full shower spray. All flow limiters comply with water regulations and each one is tested during manufacturing to assure performance. Nikles flow limiters are ecologically sound. Available from 4 lt/min to 16 lt/min and from 1.5 GPM to 2.5 GPM.

Scope of Warranty:

Nikles provides a limited warranty on its original products, including showers, faucets, flow restrictors, backflow preventers, and aerators, according to this terms and conditions. This warranty is granted exclusively to the original purchaser which provides the related receipt, and it is apply only to products or parts thereof which presents defects in materials and workmanship that render it unsuitable for its intended use – such products are termed "Non-conforming Products". If a defect occurs within this period due to a manufacturing error or faulty assembly, Nikles will, at its discretion, repair or replace the Non-conforming Product free of charge. Nikles reserves the right to analyze defective parts beforehand, also by carrying out laboratory tests at its sole discretion in order to asses if the product is a Non-conforming Product or not. The outcomes of laboratory tests shall not be disputed. The purchaser shall promptly submit a written complaint to Nikles reporting its findings, including an identification of the reported alleged Non-conforming Product(s) and the reason for which such product(s) are non-conforming; if requested, it shall send the product(s) to Nikles premises for carrying out tests (unless otherwise agreed the shipping costs shall be borne by the purchaser with the right of reimbursement only if the product(s) shall be deemed as Non-conforming Product.

Warranty Period:

The warranty is valid for a period of 5 years from the date of purchase, as evidenced by the purchase receipt.

Warranty Exclusions:

The warranty does not cover defective products in the event of improper handling/storage, misuse, disassembly, alteration of the products or any other use in conditions not conforming with the standard specification, including, but not limited to, specific water conditions. Therefore, Nikles shall have the right to refuse at its sole discretion any warranty claim or request which does not comply with these terms and conditions, including, but not limited to, claims related to the following cases which are always excluded by warranty:

1. Use of inappropriate cleaning methods, such as boiling water, corrosive or aggressive chemicals, plasticizer-containing or chlorine-based cleaning agents.
2. Disassembly or improper manipulation of the products.
3. Use in areas with heavily contaminated or highly calcareous water, maritime environments, or where water pressure exceeds 5 bar / 500 kPa before the fitting.
4. Improper storage, handling, incorrect installation, negligence, or accidents (e.g., dropping the product).
5. Nikles does not cover costs for third-party services, particularly costs incurred for the installation or replacement of products.
6. Wear parts such as seals, cartridges and diverters are not covered by the warranty and their improper replacement can affect the application to the warranty on the other parts of the product.
7. Product samples and exhibition samples, as well as any other product distributed not for the main purpose of a sale to customers.

In no event will Nikles be liable to the purchasers/users for any lost profits, lost savings or incidental, indirect, special, punitive, exemplary or consequential damages. Nikles shall not be liable for damages arising out of purchaser/user's negligent or otherwise improper handling, installation, maintenance or any other use of the Products or the breach of this warranty, which includes any installation or maintenance activities performed by the purchaser/user that do not comply with the instructions contained in the installation and maintenance manual, data sheet, technical conditions and publicity materials or any liability arising from use of material/spare or wear parts added by the purchaser/user.

Technical Conditions:

The specified technical data apply only when using the factory-installed flow restrictor. Removing or tampering with the flow restrictor will void the warranty.

The following technical standard specification/limitation shall apply to all the products:

- **Operating pressure:** 1-5 bar (100 - 500 kPa) / (14.5 - 72.5 psi)
- **Operating temperature:** Max. 42°C (107.6°F)
- **Maximum pressure:** 5 bar (500 kPa) / (72.5 psi)
- **Maximum temperature:** 60°C (140°F)

If different technical data/limitation apply to a specific product, these are explicitly stated in the respective product data sheet available in the catalog, packaging and Nikles website; any user is invited to look carefully such technical materials before installing and using the products.

This warranty does not affect any mandatory provision of consumer's statutory rights in force and applicable to the specific complaint and which exceeds this warranty provisions.
